May 2018

Message from the Executive Director

According to Leo Tolstoy, 'Art is the activity by which a person, having experienced an emotion, intentionally transmits it to others.' Art is an expression of basic human instinct for harmony, balance, and rhythm. Art itself is not an action or an object, but an internal appreciation of the artwork. Art is also a form of communication. Every artwork contains a particular emotion or mood within, which the viewers may experience it in their own perspectives.

We organize this exhibition to promote the culture and the proper manners of Art appreciation. Through this exhibition, not only the talented works of students will be shown, but also their interest in Visual Art learning will be enhanced. By visiting the exhibition, students will learn to appreciate the artworks of others and to accept different points of perspectives. We believe that with students' own works being displayed, they will be more confident and more willing to express themselves, which, in turn, their expression skills and creativity can be further developed.

Ms. S.H. Chor

Introduction of Visual Art Subject Panel Head

When fastfood culture and materialism become the mainstream directions, where would Art Education stand? Art not only requests observation, techniques, but also values comment and appreciation. Art is not only about the pursuit of Beauty, but also about the nurture of Spirituality.

From plain white drawing paper to aluminium sheet; from oil pastels to poster colours, we expect our students to experience the broad extent of Art, to feel the tension of the colours. Meanwhile, we hope that through the Art Education, the potential of a child can be developed and their sentiment can be cultivated. Every photo in Delia ARTivity is a marvellous imagination from a genuine heart. Why do we not try to step into this park, to take a look at the charming scenery?

Art Education is a long-term journey, which requires the immersion of time and the edification of years. We will continue to encourage our students to wave the ribbon of creativity in this colourful world.

Ms. W.T. Chan
