*Message from the
Executive Director*

When one visits any of our Delia primary schools and kindergartens, one thing will especially stand out for our visitors: the bright and happy faces of our students who come from diverse cultural and ethnic backgrounds. Across our schools, we have welcomed students from all six inhabited continents in the world, individuals who have collectively called this city their home. Without a doubt, our students represent the multicultural face of Hong Kong.

In this day and age, however, with the seemingly widespread talk of borders and walls, of exits and enclosures, and of separation and exclusion, multiculturalism appears to be on the receiving end of criticism from different parts of the globe. There seems to be a growing tension between diversity on one hand and national identity on the other. But as history would convincingly suggest, societies that fully embrace-rather than reject-their vibrant multiculturalism are the ones who gain the most when their inhabitants trust and bring out the best in each other.

This harmonious and cooperative community, filled with members who celebrate equality and diversity, is what our schools strive to build each and every day. With our students focusing on their similarities, rather than differences, while at the same time bringing their own unique perspectives to the table, they can together create a community that is truly greater than the sum of its parts.

After all, only when open-mindedness is valued can there be a true unleashing of creativity. If we want our children to be able to think outside the box, they need to believe that their thoughts are treasured, no matter how unorthodox or unconventional they may be. A multicultural community enables and then thrives on this kind of genuine dialogue, not mere echoes, among its members.

Here at the Delia primary schools and kindergartens, one can see the bountiful benefits of our embrace of multiculturalism. Besides celebrating different kinds of festivals, our students share with each other stories from their own cultures and life experiences. They speak a wide array of languages and learn along the way the importance of words in developing interpersonal relationships. Even the simple act of sharing traditional foods with each other speaks volumes of the generosity that underlies cultural exchanges.

But the truest testament to our school's spirit of multiculturalism is the simple fact that our students enjoy being with one another, learning and laughing alongside their friends and classmates. In spite of the unfamiliar or the different, our students just see each other as people. This is why, on behalf of the School Management, I would like to convey my most heartfelt gratitude to all of our teachers and staff who work together under the spirit of multiculturalism to guide our students in becoming tolerant, accepting, and decent human beings.

Good News

In September 2018, my second child came to my family. It was really wonderful!
In recent years, when I have become a father, I started to realize the hard work of my parents. "Parents have long worries for their child even they are 100 years old."
May the parents of the world share their enthusiasm and continue to work hard!

Staff Games Day

Staff Games Day was held on Saturday, 24th November, 2018. Our teachers fought hard again with much effort in Dodgeball, Yardzee, Connect 4 and Delia's Got Talent. Congratulations! We received the first runner-up in Delia's Got Talent. Our teachers are also great performers on stage.

Good show!

Professional Development Day

The Professional Development Day of Primary Section was held on 26th October, 2018. To match with our theme of multiculturalism this year, we visited Macau to have a fresh perspective in knowing the surrounding culture. Besides, as we concern more about STEM education, a visit to the Macau Science Centre let teachers have a good time to exchange ideas and gather information which may be utilized in further events related to STEM.

Cherish Memories with Teachers

By the end of the last school year, our J.6 graduates devoted much effort on the Speech Day. They brought us marvellous performance and memories on the day. After that, many of the J.6 graduates came back to school with their parents on the Photo Taking Day for capturing more sweet memories. It was also the first time we arranged a Graduation Lunch in the School Hall. It's so hard to say goodbye to yesterday. Nevertheless, their class teachers encouraged them to achieve further in their secondary school life.

Unforgettable Outings

Various educational outings were arranged to enrich whole-person development of students.

Last July, our Cub Scout leaders specially arranged the first camping in school campus. It was interesting to see them set their tents in the classrooms. With this breakthrough experience, they were confident enough to take part in another challenging 3-day-2-night wild camping with other schools at Kowloon Peak. Great job!
